Adam:

As this is intended to be an informal meeting with the Rio Vista community, there will be no formal meeting minutes posted. The goal of this open house is really to introduce ourselves to the community. I will pull together a brief summary of the event that we can share with you. Also I would be more than happy to give you a call on Friday regarding the outcome.

Best regards,
Barbara

Barbara,

Thank you very much for notification of the open house. Unfortunately, it appears that I will be unable to attend. Will the minutes from the meeting be posted? If not, would it be possible to send them to me? It would be quite helpful to understand the type of feedback that the project is getting from the public as we move forward with the permitting process. Thank you very much.

Subject:	Open House this Thursday

Adam:

The West Coast Regional Carbon Sequestration Partnership (WESTCARB) - in collaboration with Shell's C6 Resources - is hosting an open house on Thursday, January 28 from 6:30 to

8:30 p.m. in Rio Vista to discuss a proposed carbon reduction project the in Montezuma Hills area.

WESTCARB, a research collaboration of more than 80 public agencies, private companies, and nonprofit organizations, is working with Shell as the operating partner on the Northern California CO₂ Reduction Project. The open house will feature visual displays, handouts and subject matter experts to discuss climate change and the role that this proposed project can play in addressing the issue.

The invitation and event details are attached. Please let me know if you have any questions or if there is any additional information that I can provide. I hope to see you at this exciting open house!

Best Regards,

Barbara Kornylo
